

KidsWantU

We give busy parents and carers ideas for fun, when there's no thinking energy left!

KidsWantU - mobile technology for quality time together away, from a screen.

Creating lasting memories with instant access to activities for fun with 2-10-year-olds. Customised for ages, place, preferences and timeframe - anywhere, anytime using everyday items.

Pick 3 things from the suggestions that you (the adult) like then kids choose their "surprise" activity from them. Look through the instructions, then put the phone aside for uninterrupted fun, together.

Created in Australia ... changing the world. Join in the fun at kidswantu.com

Chatterbox

1. Lay flat with KidsWantU logo facing up. Fold all four corners in towards centre so points touch.
 - a. 
 - b. 
2. Your paper should look like this.  Now, flip it over so the folds you just made are face down.
3. Fold the next four corners in towards centre so points touch. 
4. Fold in half one way and then the other to crease the folds. 
5. Put your fingers inside the open corners to pull points out. 
6. Here's how it should look finished. 
7. Let's play! Ask someone to pick a number or colour. Open and close the chatterbox by spelling or counting it out. Repeat. Choose a word, open flap and have a chat!
